

Plant Therapy Releases Organic Blue Yarrow 10% Essential Oil

A leader in aromatherapy, Plant Therapy's releases Organic Blue Yarrow 10%, popular for its skin care, digestive and calming properties.

TWIN FALLS, Idaho ([PRWEB](#)) November 30, 2017 -- Plant Therapy, a leader in the aromatherapy industry, announced the release of [Organic Blue Yarrow 10% essential oil](#), bringing its count of USDA Certified Organic essential oils to 69 individual products.

“People are seeking organic solutions in their lives and our essential oils fill this need,” said Chris Jones, President of Plant Therapy. “Our recent addition of Organic Blue Yarrow 10% to our line of essential oils adheres to our standards of quality that are some of the strictest in the industry.”

Because of the strength of Organic Blue Yarrow, this 10-percent dilution with Organic Jojoba Carrier Oil is ideal for regular use. Originating from Bulgaria, it is steam distilled from the flowering tops and leaves of the Yarrow plant. It is also known as Yarrow chamazulene chemotype because during the distillation process chamazulene is produced from mastracin, giving it the rich, blue hue.

Organic Blue Yarrow 10% is a gentle, yet effective essential oil that is wonderful for the skin, digestive upset, calming the mind and senses, and minor skin injuries. Its rich, herbaceous scent is known to help during times of worry and to help calm the mind before bedtime. Users often apply to soothe and rejuvenate the skin, as well as help minor skin injuries and reduce redness.
