

Plant Therapy Releases its AromaFuse Diffuser

Plant Therapy, a leader in the aromatherapy industry, is celebrating the release of its finest ultrasonic diffuser.

Twin Falls, Idaho ([PRWEB](#)) November 14, 2016 -- Plant Therapy, the fastest-growing essential oil company in the U.S., announced the release of its [AromaFuse](#) ultrasonic essential oil diffuser. Plant Therapy designed the modern, stylish diffuser to meet all of the needs of its customers. It features five timer settings, a dimmable LED light and a large water reservoir that allows up to 10 hours of continuous diffusion.

Many of Plant Therapy's essential oil customers use diffusers, which emit a light mist that disperses the essential oils into the air. Diffusing different oils or oil blends can help lift the spirits, relax the body and calm the mind. The AromaFuse diffuser is the ideal accessory for Plant Therapy's extensive line of 100% pure, high-quality essential oils.

"We wanted to create a beautiful diffuser that has all the features our customers want," said Chris Jones, President of Plant Therapy. "The AromaFuse meets that criteria as well as our high standards for quality and safety."

The [AromaFuse diffuser](#) requires no chemicals or heat, allowing the essential oils to retain all of their natural benefits and chemical profile. The five timer settings include several options for both continuous and intermittent mist, so users can choose precisely the right setting for each oil and situation. The continuous-mist settings will diffuse for either two hours or until the water runs out (approximately 10–11 hours). The AromaFuse's intermittent settings allow users to diffuse for 30 seconds on, 30 seconds off; 15 minutes on, 30 minutes off; or 30 minutes on, 30 minutes off.

The AromaFuse has a clean, modern look that will complement any décor and is available in either white or a lovely wood-grain brown. All plastic parts are BPA-free, and the diffuser has a special coating that protects against erosion by essential oils. Plant Therapy is backing the quality of the AromaFuse with a 1-year warranty.

To celebrate the launch of the [AromaFuse](#), Plant Therapy will choose three winners to receive one of the new diffusers. People can enter to win the prize package via any of Plant Therapy's social media pages, including Facebook, Twitter and Pinterest.
