

WHAT YOU WILL NEED

- 1 ½ sheets craft paper
- 1 pipe cleaner
- A hole punch

WHAT YOU WILL DO

1. Cut craft paper into 1 x 10-inch strips
2. Punch a hole in both ends of each strip.
3. Make a small loop at one end of the pipe cleaner.
4. Thread one end of each strip of paper, pattern side toward the loop. If you are using more than one or color or pattern you will want to alternate the paper.
5. Make another loop in the pipe cleaner. This will help to hold the paper in place.
6. About half way up the pipe cleaner make another loop and thread the other end of the paper strips.
7. Make a final loop to hold the paper in place and fan out the paper to form a pumpkin.
8. Wrap the remainder of the pipe cleaner around a pencil to create the tendril.
9. Add a drop or 2 of your favorite fall blend to the pipe cleaner.
